

About Us

Since 1976, Harbour has been synonymous with luxury outdoor furniture. Born in Australia and now based in the US, we're a global leader in luxury outdoor manufacturing and design.

Nicholas & Harrison Condos — our founders and two of the world's leading furniture designers — are inspired by the culture of craftsmanship passed down by their father.

"Our father taught us everything we know in the art of metal craftsmanship and construction of furniture, and it was through our upbringing that we developed a real passion for design and architecture that inspired us to create Harbour."

- Harrison Condos

Dedicated Trade Support

Our team leverages decades of experience to provide dedicated support to our trade and wholesale partners.

We offer delivery logistics within Europe and internationally, capitalising on long-standing relationships with global freight partners to optimise delivery routes and extend competitive rates directly to our partners.

Equipped with a global supply chain and dedicated logistics team, we are fully capable of scaling for higher volume projects.

Special Order Program

Harbour can manufacture Special Orders within 90 days at our workshops. If it's not a direct container buy, the items can wait to be consolidated with and ship with one of Harbour's stock containers heading to Belgium prior to final pick-up or delivery.

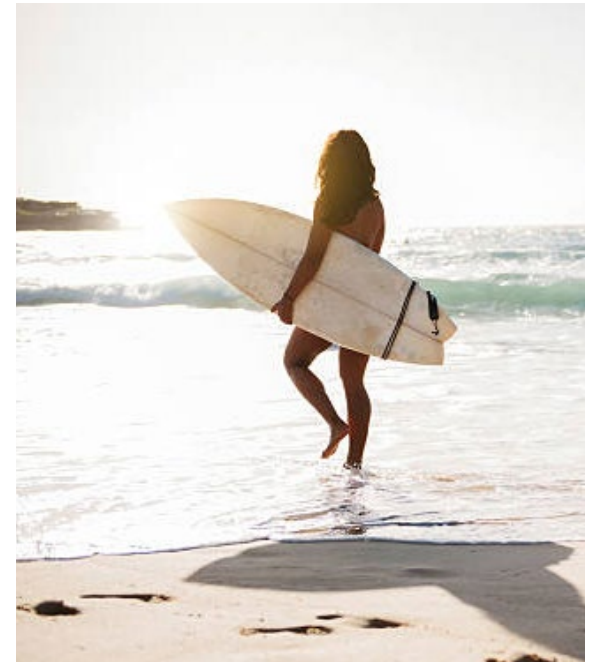

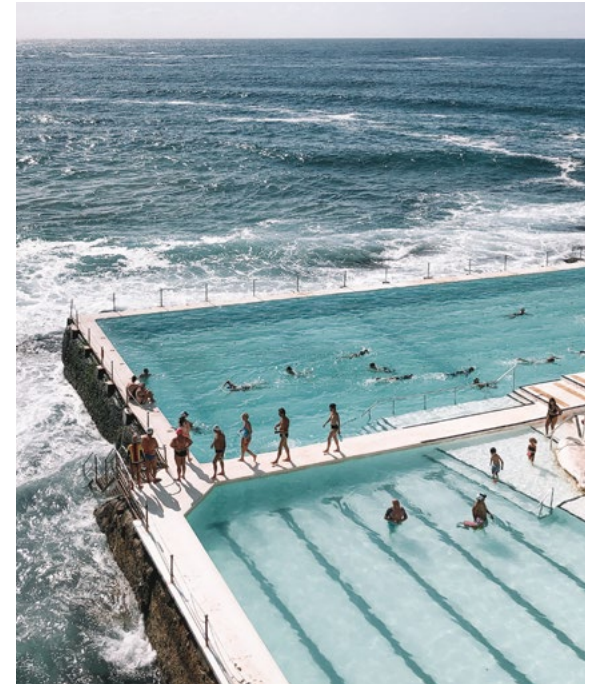

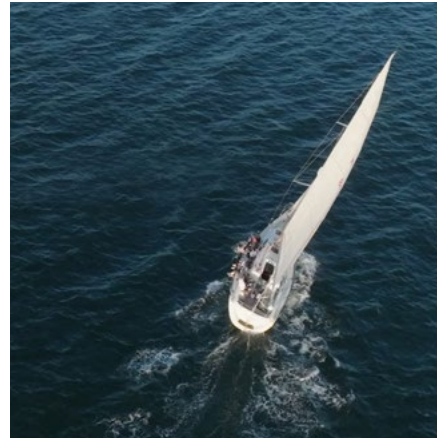

Mixed Containers can be ordered and designed to include a variety of collections made in the same country. To aid in flexibility, our items typically have little to no MOQ, with the exception of teak products which have a low MOQ of 5 units per order.

Highly Competitive Pricing

We strive to offer the perfect balance in our pricing, which includes competitive retail pricing in the marketplace, but strong discounts for our partners to be able to maintain their margins and sales opportunities

Inspired by Australia's Coastal Lifestyle

Each Harbour collection is an expression of our Australian way of life: the outdoors, travel, nature and modern design. Evolved from generations of Australian design, our signature aesthetic is fresh, light, modern, coastal and luxe-inspired. Our story is as alluring as our style, built on a foundation of shared history and craftsmanship.

Timeless Designs

Known for being tastemakers and the leading innovators in the world of furniture design, our collections also maintain a timeless, classic aesthetic and style that endures any season.

Vertically Integrated

Harbour is an Original Design Manufacturer, which uniquely sets us apart from our competitors. We own and operate specialist factories worldwide, offering superior control over the quality of production.

This in-house model gives us a distinct advantage because it:

- Enables a deep attention to detail and craftsmanship that puts us in a class all our own in the marketplace.
- Accelerates our timeline for introducing new designs, trends, materials and fabrics at market-leading price points.

Unmatched Quality

Impeccable design, unsurpassed quality and timeless elegance.

Our manufacturing combines the finest raw materials and components to create products of truly exceptional quality. Keeping all design and manufacturing in house not only enables an unparalleled attention to detail and craftsmanship — it also brings designs to market incredibly quickly.

Designed for Comfort

Our seating is specifically engineered to balance performance with comfort. Ranging from slatted and sling suspensions in the frames, our cushions are not only designed to sit aesthetically within the frame, but they are also designed with “the sit” in mind.

To achieve this, each cushion is constructed from quick drying reticulated foam, which are layered in a range of foam densities and wrapped with Dacron toppers to achieve sink-in yet supportive comfort in the sit. The result is an outdoor cushion with the comfort of indoor seating - something that doesn't exist anywhere else in the market.

Made for a Lifetime

Materials

Built to withstand all climates, all Harbour materials are implemented to perform in the elements and maintain our strong aesthetic and design ethos. From ropes & straps, to fabrics and natural stones, we pair materials in a variety of ways to layer

Our core materials are worth highlighting and include:

- Powdercoated Aluminium: Largely sourced from recycled Aluminium
- Natural Teak: Sustainability sourced and A-grade in quality and colour
- Outdoor Fabrics: Luxurious textiles that perform from around the globe

Sustainability

We are committed to sustainability and ethical responsibility. Each year we take steps to improve our processes and dedication to reducing our impact on the environment. As an outdoor focused brand, it's part of our ethos to respect nature and where materials come from.

Luxury Collaborations

Harrison & Nicholas Condos have proudly crafted furniture for premier retailers, collaborated with award-winning designers, and shaped custom environments for the world's most renowned luxury destinations.

A man with dark hair and a beard, wearing a white polo shirt and light-colored trousers, is sitting on a modern, light-colored outdoor sofa. He is barefoot and looking towards the right. The sofa is positioned under a pergola with dark wooden slats. In the foreground, there is a low, round, light-colored coffee table with a white ceramic vase and some dried grass on it. To the left of the sofa is a matching armchair. The background shows a swimming pool and lush greenery under a clear blue sky.
